PROFILE

Passionate and self-driven B.Tech Computer Science Engineering student with strong interest in Full Stack Development, Artificial Intelligence, and modern web technologies. Experienced in building real-world projects, AI-powered applications, and responsive web platforms. Active participant in hackathons and continuously improving technical and problem-solving skills through practical development.

EDUCATION

SR University

Bachelor of Technology (B.Tech) – Computer Science Engineering

2023 – 2027

Current Year: 3rd Year

Relevant Areas:

- Full Stack Development
 - Artificial Intelligence
 - Cloud Computing
 - Web Technologies
 - Data Analytics
-

TECHNICAL SKILLS

Programming Languages

- JavaScript
- Python
- C
- Java

Frontend Development

- React.js
- HTML5
- CSS3
- Tailwind CSS
- Responsive UI Design

Backend Development

- Node.js
- Express.js
- REST APIs

Database & Cloud

- MongoDB
- Firebase
- MySQL
- Cloud Deployment

Tools & Platforms

- Git & GitHub
- VS Code
- Netlify
- Vercel
- Postman

AI & Emerging Tech

- AI Assisted Development
 - Prompt Engineering
 - Machine Learning Basics
 - AI Tool Integration
-

PROJECTS

AyuLink — Emergency Healthcare Platform

- Developed an AI-assisted healthcare support platform for emergency situations.
- Built responsive frontend and backend architecture.
- Integrated modern UI/UX with real-time interaction features.
- Focused on accessibility and rapid emergency response workflow.

Technologies Used:

React.js • Node.js • MongoDB • REST APIs

AI Smart Mirror with Health Monitoring & Voice Assistant

- Designed a smart mirror system integrated with AI features.
- Implemented voice assistant functionality and health monitoring concepts.
- Focused on real-world usability and intelligent automation.

Technologies Used:

Python • AI APIs • IoT Concepts

Diet Planner & AI Tools

- Developed AI-powered utility applications and planning tools.
 - Built modern user interfaces and optimized user experience.
 - Integrated APIs and automation features.
-

EXPERIENCE

Freelance Full Stack Developer

Self-Driven Projects

2024 – Present

- Built responsive and modern web applications.
- Developed complete frontend and backend solutions.
- Worked with APIs, authentication systems, and deployment platforms.
- Improved UI/UX design and real-time application performance.

Hackathon Participant

2023 – Present

- Participated in university and innovation hackathons.
 - Collaborated with teams to rapidly prototype technical solutions.
 - Improved teamwork, communication, and presentation skills.
 - Worked on AI, healthcare, and full-stack project ideas.
-

ACHIEVEMENTS

- Built multiple real-world full-stack applications.
 - Active learner in AI and modern web technologies.
 - Consistently improving development and deployment skills.
 - Strong interest in scalable and impactful digital solutions.
-

SOFT SKILLS

- Problem Solving
 - Team Collaboration
 - Communication
 - Creativity
 - Rapid Learning
 - Adaptability
-

LANGUAGES

- English
 - Telugu
 - Hindi
-

CAREER OBJECTIVE

To become a skilled software engineer specializing in Full Stack Development and AI technologies while building innovative digital products that solve real-world problems.
